---

## Skills

---

I am a skilled web developer with a focus on the LAMP stack, ReactJS Frontends, and web design in Adobe XD. I have worked with other languages as well and I am open to learning new technologies..

---

## Experience

---

### Administrative Offices of the District Attorneys

#### Application Developer

January 2020 - PRESENT, Albuquerque

I was part of a two person development team responsible for the redesign, rebuild, and deployment of [NMSAVIN](#). This involved developing project goals, database design, building a database, class and api design, build, and unit testing, designing logos, wireframing and prototyping, creating a responsive react app, implementing a secure data transfer method, and creating a system to automatically notify users via text, email, and phone call. This system is used to receive notifications of updates to criminal cases throughout New Mexico.

---

## Education

---

### CNM Ingenuity / Fullstack Web Development

October 2019 - December 2019, Albuquerque

This is a team-focused, ten week intensive course with 40 hours of instruction a week. It was created in cooperation with local development firms to produce developers who are ready to create applications from start to finish.

---

## Awards

---
