Experience

Health Care Service Corporation

Full Stack Software Engineer
September 2022 - Current, Hybrid in Albuquerque, New Mexico
Stack: ReactJS, Java, MuleSoft, Github, UCD, Jenkins

Lead refactoring of the member facing web application to a micro-frontend architecture. Taught internal class on ReactJS. Made infrastructure decisions that reduced the size of our FE packages by 60%. Acted as ReactJS SME for multiple departments while performing as a senior developer on a smaller team of 6 developers. Created company wide coding standards and style guide for ReactJS. Updated Java version of microservices.

nQ Zebraworks

Full Stack Software Developer
August 2021 - September 2022, Remote
Stack: .NET, C#, Java, MSSQL, AngularJS, TortoiseSVN

Maintained and improved on-premise legal software that provides REST API access and management of user accounts, configuration, and licensing for a suite of practice management tools. Mentored new employees to conform to coding standards and helped them build familiarity with the code base.

New Mexico Administrative Offices of the District Attorneys

Full Stack Application Developer
January 2020 - August 2021, Albuquerque, New Mexico
Stack: PHP, ReactJS, MSSQL, NGINX, Docker, Apache, Github

Redesigned and rebuilt a phone, SMS, and email notification system for victims of crimes and victim advocates in the state of New Mexico. Maintained the Case Management System used by the District Attorney offices in New Mexico.

Rodgers Plumbing and Heating, Inc.

Inventory Management and Billing
January 2014 - September 2019, Albuquerque, New Mexico
Stack: VBA, Google Script, Excel, Google Sheets

Created and managed business applications in Excel using VBA, Google Sheets and Google apps script. This helped standardize processes and made them more efficient.

Skills

Languages: Javascript, Typescript, C#, Java, PHP, HTML, CSS
Frameworks/Extensions: .NET, LINQ, TSQL, ReactJS, AngularJS, Spring, Bootstrap, SCSS
Databases: MySQL, MsSQL
Tools: Visual Studio, TortoiseSVN, MuleSoft, Jenkins, UrbanCode Deploy, Concourse, Jetbrains products, Microsoft SQL Server, Mantis, Insomnia, Docker, Advanced Rest Client, Git, SVN, VIM

Education

CNM Ingenuity / Fullstack Web Development

October 2019 - December 2019, Albuquerque, New Mexico

I completed a ten week intensive full stack web development bootcamp. We were taught technical skills, organizational tools, and how to work with a team to develop web applications.

Awards

[2019-2020 UNM/CNM Mobile App Contest - First Place](#)

2022 HCSC Einstein Award

2022 HCSC Developer of the Year - Runner Up

Community

Albuquerque Software Social Club / Founder

September 2022 - Now, Albuquerque, New Mexico

I founded a club to bring software folks in Albuquerque for networking, problem solving, and to build up the local community. This community has grown to have a membership of 240 folks involved in software.

Google Developer Group Albuquerque / Co-Founder

October 2022 - Now, Albuquerque, New Mexico

I started and co-organize a local chapter of Google Developer Groups in order to help bring resources to Albuquerque to grow our community's skills. We host monthly technical learning sessions where folks in software can present on technologies, personal projects, and strategies they use to become better professionally. We regularly have between 20 and 40 people attend our monthly Tech Talks.
